

MICRODOSE SERIES

Developmental Science for Those Who Shape It

Three courses. 315 modules. Every question a parent, teacher, or coach has ever asked.

Course 1: The Living Room

Course 2: The Classroom

Course 3: The Training Room

5 minutes: Evidence becomes Action

60s

THE EXPERT

Leading researcher delivers the science.

60s

THE TRANSLATION

Audio storyteller breaks down what the science means for real life.

3min

THE RECIPE

Narrative translator writes step-by-step instructions you can implement today, plus what to expect when you do.

After each module: a 3-question survey so we can learn from users and bring insights back to the research.

THE FRAMEWORK

Every module maps to a domain of whole-child development.

*The owner's manual for raising a child
has always existed in research journals and university
labs.*

CAPSuLe unlocks it for the communities that need it, and carries
what it learns back to those writing it.
